monster® EMPLOYMENT INDEX

UAE's banking and financial industry is hiring, according to data released by Monster Employment Index Middle East

- Hiring in Saudi Arabia and Egypt is soaring
- Demand for jobs in the creative industry in Saudi Arabia increased by 55% year on year
- In the UAE, the banking and finance services (BFSI) industry continues to lead with an increase of 65% compared to last year in terms of online job listings

March 2015 Index Highlights

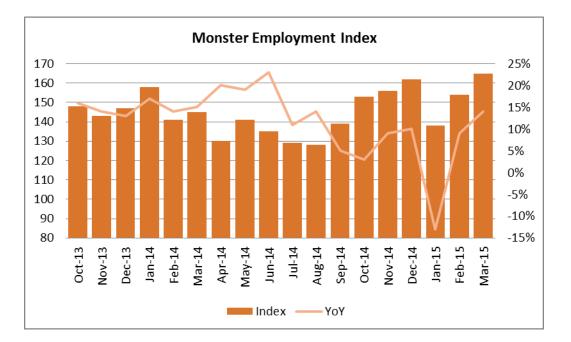

- Monster Employment Index Middle East continues its positive growth trend, with a 14 percent increase in March 2015, as compared to the same period last year. The growth momentum went up five percentage points between February and March 2015.
- The banking and financial services industry, alongside hospitality, are hiring the most
- Demand for finance and accounting professionals in the Middle East is soaring, with a 67% increase in job listings as compared to the same period last year
- KSA followed by Egypt lead all monitored counties by the way of long-term growth. Kuwait is the only country to exhibit a negative annual growth rate even this month

The Monster Employment Index is a monthly gauge of online job posting activity in Middle-East based on a real-time review of tens of thousands of employer job opportunities culled from a large representative selection of career Web sites and online job listings. The Index does not reflect the trend of any one advertiser or source, but is an aggregate measure of the change in job listings across the industry.

"We continue to see an increase in demand for talent in the banking and finance industry, with online job listings for this sector increasing by 38% year on year in the UAE and by 65% year on year in the region. Finance and accounting positions are also in demand with an increase in online job postings of 43% for the UAE market and 67% for the region," said **Sanjay Modi, Managing Director, Monster.com (India, Middle East, South East Asia and Hong Kong).**

Online hiring in Saudi Arabia and Egypt is soaring, with an increase of 30% and 28% respectively, in job listings. The UAE registered a modest growth of 17%, whereas Kuwait is the only Gulf country which registered a negative growth of 7% as compared to March 2014," added Modi.

For those looking for a job in a creative industry, Saudi Arabia might be your best option, as the Kingdom's Advertising, Market Research, Public Relations, Media and Entertainment Industry continues to lead with a 55% increase in job postings in March 2015, as compared to the same period last year. With the positive growth of the economy and Tadawul's potential opening to foreign investment in 2015, local and international firms operating in Saudi Arabia are excited at the prospect of promoting their products and services, which has led to a significant increase in demand for creative talent," said Modi.

Industry Year-over-Year Trends: Nine of the 12 industry sectors monitored by the Index saw online opportunities exceed the year-ago level.

- **BFSI** continues to pace upward, however, at a rate slower than in February 2015. Charting a 65 percent growth on the year the group led all industry sectors even this month. While the group continues to chart dramatic year-on growth the three month growth rate has been quite controlled since January. Clearly, while hiring continues to be positive in the sector the pace has moderated.
- Hospitality (up 43 percent) was the closest second in terms of long-term gain even this month. Nevertheless
 the growth momentum eased even in the hospitality sector; down 10 percentage points from 53 percent in
 February 2015.
- Engineering, Construction and Real Estate (up 17 percent) sector appears to have rebounded. February 2015 marked the second month of robust and positive long-term growth rate. The sector has been charting positive month-on growth as well since February 2015.
- Online hiring in the **Oil and Gas** (down one percent) sector neared the year-ago level having charted steep drop in January and February 2015.
- Consumer Goods/ FMCG, Food & Packaged Food, Home Appliance, Garments/ Textiles/ Leather, Gems & Jewellery (down 27 percent); and Production/Manufacturing, Automotive and Ancillary (down 27 percent) recorded the steepest decline among all industry sectors.

| Year-over-year Growth | Mar 14 | Mar 15 | % Growth Y-o-Y |

Occupation Year-over-Year Trends: Online demand improved for nine occupational groups out of the 11 groups monitored by the Index.

- Online demand for **Finance and Account** personnel increased 67 percent since March 2014. While the long-term growth momentum eased 20 percentage points between February and March 2015, the group continued to lead all industry sectors even this month.
- Software, Hardware, Telecom (up 53 percent) registered dramatic growth in demand between March 2014 and March 2015 consequent upon steep double digit month-on growth. Hiring activity for the group (MoM) increased following low levels from November 2014 until January 2015.
- Online demand for **Health Care** professionals continued to hover around the year-ago level; up by one percent. The group has not recorded significant growth in the last few months
- **Customer service** (down 35 percent) professionals registered the steepest drop in online demand among all occupation groups even this month.

| Year-over-year Growth | Mar 14 | Mar 15 | % Growth Y-o-Y |

<u>Geographic Year-over-year Trends</u>: Six out of seven countries monitored by the Index indicated increase in availability of online jobs year-on-year.

- **KSA** (up 30 percent) supplanted **Egypt** (up 28 percent) to lead all monitored countries by the way of long-term growth.
- **UAE** (up 17 percent) registered a positive annual growth this month. Year-on-year, recruitment activity eased 10 percent in January 2015 and matched that of February 2014 the following month before picking up again this month
- **Kuwait** (down seven percent) is the only country to exhibit negative annual growth rate even this month. The rate of growth has however improved slightly.
